

El Dorado County ARES net script – Tuesdays @ 21:00 PST

20:55 – Please stand by for the El Dorado County ARES net. The ARES net will begin at 21:00 hours. This is <callsign>, net control for the net this evening.

21:00 – Good evening. This is the El Dorado County ARES net. This net will meet each Tuesday at 21:00 hours on AG6AU 2m Repeater System. The repeater output is 147.825 the input is -600 kHz and the PL Tone is 82.5. Your net control this evening is <callsign> and my name is <name>.

This is a directed net and is part of the ARRL field organization. The purpose of this net is to provide communications during emergencies and to provide training in procedures that would apply in actual emergencies and test communications capabilities of EL Dorado County ARES.

Any stations with emergency, priority or time-valued traffic please contact net control at this time. *(brief pause)*

I will now call the roll of the El Dorado County ARES Members. When called please acknowledge and indicate if you have any traffic or news. Stations should request permission to secure if they can't participate in tonight's net.

(refer to EDC ARES muster for roll-call)

I will now check in all other stations that wish to participate. I will check you in by the first letter of your call-sign suffix. When checking in please give your call sign phonetically, and your first name. You may also indicate if you have traffic or news.

First group, call-sign suffix Alpha through Delta check in now. *(pause for check-ins)*
Any other Alpha through Delta stations? *(pause again)*

Second group, call-sign suffix Echo through Lima check in now. *(pause for check-ins)*
Any other Echo through Lima stations? *(pause again)*

Third group, call-sign suffix Mike through Romeo check in now. *(pause for check-ins)*
Any other Mike through Romeo stations? *(pause again)*

Fourth group, call-sign suffix Sierra through Zulu check in now. *(pause for check-ins)*
Any other Sierra through Zulu stations? *(pause again)*

Any stations Alfa though Zulu? *(pause for check-ins)*

This is <callsign> and I thank you for checking in this evening and welcome any visitors to our net this evening.

Acknowledge any stations with traffic or news:

<callsign> this is <callsign> you may pass your traffic or news. Please acknowledge net control when complete.

Tonight's training topic will be <topic> and will be presented by <trainer callsign>. <trainer callsign> when training is complete please turn the net back over to net control <trainer callsign> you may begin your training <net control callsign>.

Thank you for providing tonight's training.

This will be the last call for late or missed check-ins to El Dorado County ARES net for this evening. Any late or missed stations please check in now your call sign phonetically, and your first name. You may also indicate if you have traffic. *(pause for check-ins)*

We will now go through the net muster to see if any participating stations have questions or comments.

(read through the muster list and query each station for comments or questions)

Any final questions or comments this evening? *(pause for any responses)*

This concludes the El Dorado County ARES net. Our thanks to the El Dorado county ARC for allowing us to use the AG6AU repeater. Also our thanks to all the operators who checked in tonight. Those stations may secure at their leisure. This is <callsign>, returning the repeater to normal amateur use.
